

MEGA CURE

Resin Based Concrete Curing Compound

DESCRIPTION

- **MEGA CURE** is a resin based solvented curing compound to provide a membrane on the surface of fresh concrete to retain moisture for effective curing throughout the complete hydration of cement.

ADVANTAGES

- * Eliminates the need for damp hessian, sand, or polyethylene sheets
- * Reduces surface shrinkage and cracking
- * No waiting – apply as soon as possible after placing concrete
- * Enable concrete to hydrate more efficiently
- * Easy to apply

INSTRUCTION FOR USE

- * **MEGA CURE** should be sprayed to the surface of newly placed concrete, on vertical surfaces, after striping of the formwork, spray the concrete with clean water then apply **MEGA CURE**.

COVERAGE

- * 7 – 9 sq.m per liter

STRENGTH in Construction

TECHNICAL INFORMATION

Density at 25° C	0.81 ± 0.02 kg/l	Consistency	Sprayable transparent Yellow liquid
-------------------------	------------------	--------------------	--

PACKAGES

- * 20 liters container
- * 200 liters drums

STORAGE

- * 1 year in sealed packs, under suitable storage conditions.
