

MEGA FINE

Acrylic Textured Paint, High Weather Resistant

DESCRIPTION

- **MEGA FINE** is a ready to use, high quality, 100% pure acrylic water base exterior coating. It gives a medium textured decorative and flexible protective finish coat with a semi-gloss effect.

ADVANTAGES

- * **MEGA FINE** is especially formulated to meet extreme weathering conditions.
- * Durable with good elastic properties which ensure over bridging properties for cracks.
- * Resistant to U.V radiation and resistant to harmful environmental factors.
- * Anti-fungus and has anti-carbonation properties.
- * Impermeable against water.
- * Suitable for use on different types of surfaces such as concrete, cement, plaster, gypsum board....etc.
- * Can be applied with different textures.

FIELDS OF APPLICATIONS

- **MEGA FINE** is recommended for exterior applications as a medium or fine texture finish against extreme weathering conditions
- **MEGA FINE** is recommended for application whatever the substrate is cement plaster, concrete or bricks.
- **MEGA FINE** is available in white and according to our color chart.

SURFACE PREPARATION & APPLICATION

- Substrate must be sound, clean, and free from dust, oil, grease, and laitance.
- Apply one coat of **MEGA SEALER P** diluted with water according to substrate conditions.
- Dilute **MEGA FINE** with water and mix the content to obtain a homogenous paste, apply the first coat by a roller or a trowel within 2 h to 24 h after applying the primer coat to insure good adhesion.
- Dilute **MEGA FINE** with water & apply the second coat by a roller or a trowel within 2 h to 2h from applying the first coat.

Dilution with water must not exceed 5%.

STRENGTH in Construction

TECHNICAL INFORMATION

Density at 25° C	1.45 ± 0.02 kg/l	Touch dry at 25°C	30 minutes
Viscosity at 25° C	190 - 200 poise	Hard dry at 25°	2 hour
PH value	7.5 : 8.5	Consumption	0.65: 0.75 kg /sq.m / coat

METHOD OF APPLICATION

Roller , Spray or Trowel

CLEANING OF TOOLS

Water

PACKAGES

20 kg Containers

STORAGE

9 Months In Sealed Packs, Under Suitable Storage Conditions.
