

MEGA POOL DECK

Decorative Cement Base Product for Finishing Pool Deck Flooring
Reduce Feeling High Temperature

DESCRIPTION

* **MEGA POOL DECK** is a cement base, two components product with acrylic polymers to protect foot from feeling high temperatures, special colored filling materials, specially formulated for pool deck flooring and for finishing inside pool walls and floors.

ADVANTAGES

- **MEGA POOL DECK** is produced in different colors, which are not affected by weathering conditions, water, salts and chlorine
- Fast drying, which saves application time
- After dry, it produces an attractive colored finish
- **MEGA POOL DECK** contains special fillers which protect foot from feeling high temperatures
- **MEGA POOL DECK** is an alternative solution to ceramic, marble, tiles etc ...
- Suitable for inside and outside application
- Has excellent adhesive properties on all building materials

DIRECTION FOR USE

- Surface should be clean, free from dirt's, oil, grease etc...
- Saturate dry surfaces with clean water just prior to applying **MEGA POOL DECK**
- Add component B (liquid) to component A (powder) and mix well to obtain a slurry consistency, then apply one or two coats using wide brush, sprayer or roller
- Press the scratched layer with a plaster's trowel to obtain the required decorative shape
- Curing with clean water for minimum 3 days is a must
- It is recommended to apply **MEGA STAMP SEAL** (transparent or colored) to obtain high durability surface, not affected by ultraviolet rays, very resistant to weathering conditions and to chemical effects.

STRENGTH in Construction

TECHNICAL INFORMATION

Density at 25° c	1.8 kg / L	Color	White and colored
Compressive Strength	25 N / mm2	Flexural Strength	5 N / mm2

PACKAGES

30 kg (powder 22 kg sacks) , (liquid 8 kg container)

STORAGE

One year in sealed packs, under suitable storage conditions.
